Othello: Final Project

Choose ONE of the following projects. All projects must be presented to the class. Be creative…and have fun!

1) Design a visual representation in which you depict one scene from the play. Pay careful attention to the details of the scene and incorporate them into your design. You can:
   - Create a drawing, painting, sketch, diorama, sculpture, etc.
   - Make sure to represent all of the characters in the scene, i.e., if you do the scene when Othello slaps Desdemona, include all the characters watching (Ludovico, Gratiano, etc.).
   - Also, write a 3-page description explaining your creative choices.

2) Write a new ending to Othello. Your rewrite must:
   - Be at least 5 pages and follow playwriting format.
   - Write in blank verse (Shakespeare’s style)
   - Use literary devices
   - Bring the story to a new resolution.

3) Re-write and perform a scene (not Cassio’s drunken scene!). Scene must include:
   - A final script: typed, double-spaced, 12 pt font, Times New Roman
   - Stay true to the characters
   - Time & setting
   - Props & costumes
   - Can be a group project, or possibly a monologue (speech delivered by one character).
