

Choose Your Own Coding Adventure

This summer, your child's coding journey continues with The Coding Space. We've got virtual options for every schedule and skill level from ages 6-17. Whether you're looking for a weekly class or a week-long summer program for your kids, an unforgettable summer adventure awaits.

Summer Classes

.....

These live Zoom classes balance project-based coding education with hands-on activities and opportunities to create and explore at home. Featuring evening and weekend classes, this option is a perfect way for busy kids to continue their coding journey over the summer.

Mini & Half-Day Camps

.....

Our wildly popular virtual summer camp is back and better than ever! Held Monday through Friday throughout the summer, these live Zoom classes combine project-based coding, STEM elective exploration, hands-on activities, epic team challenges, theme days, and more to create an unforgettable summer experience.
