Due to COVID-19 and CDC guidelines, we will need to social distance during Kindergarten School Bus Orientation. If for any reason you need to attend a different time or day, please call ahead so we can plan accordingly.

The children will view and discuss a school bus safety video, take a ride on a school bus (2 per seat) and participate in a bus safety drill. The program will take approximately 45 minutes. I will have activity books and crayons for all the students.

While the children are riding the bus, there will be a short meeting for the parents to discuss transportation issues and answer questions.

**Please note...if you are not able to attend the session scheduled at your school, you are welcome to attend a session at any one of the other schools, however, you will need to notify us first.**

If there are any questions about the program, please call the transportation office at 767-5680.
